New Gallagher Products for 2007

More power to the fence with the PowerPlus MR5000

The latest PowerPlus Energizer, the MR5000, features maximum power along with the convenience of a Remote Control. It is designed for users with large farms that need no nonsense livestock control. The MR5000 is a 110V plug-in Energizer with an impressive 45 joules of stored energy that enables it to power 400+ acres of multi-wire fencing. A unique feature of the MR5000 is the built-in Turbo Power that responds automatically under extreme fence conditions. Flexible output settings allow you to choose High or Low Power.

The MR5000 is fully modular, has built-in advanced lightning protection and comes with a full two year guarantee. The included remote control lets you stop or start the Energizer from anywhere on the fence. An easily visible fence condition light flashes green if the output voltage is above 3.4 kV and flashes red if the output voltage is less than 3.4 kV. The MR5000 is a high performance, exceptional value, no-hassle Energizer; just hook up, plug in and enjoy superior livestock control!

The suggested retail price is \$2,199.99.

There is a special introductory offer of a free SmartFix Fault Finder included with every purchase.

S50 Solar Energizer

The S50 is a new, solar-powered, eco-friendly Energizer designed for small acreages and strip grazing. It is fully self-sufficient, using solar power to charge an internal battery; even the fence leads are included!

The 0.5 joules of stored energy will power up to 15 acres of multi-wire fencing.

Simply mount the S50 near your fence, face it south for maximum sun, connect it up and relax!

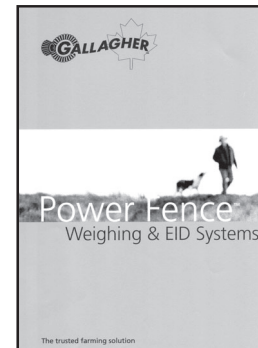

The S50 is designed to operate outdoors in most weather conditions. In order to save on battery power it automatically uses less power during the night. The Energizer can be mounted on a wall, on a wooden post, or can sit on the ground, making it suitable for permanent or portable fencing.

An impact resistant plastic lens helps to protect the large solar panel. The S50 comes with a two year warranty.

The suggested retail price is \$599.99.

New Gallagher Brochure

The all-new Gallagher Power Fence and Weighing Systems brochure is now available.

The bright, orange brochure contains details of Energizers, including SmartPower and the new PowerPlus Energizers; permanent and portable fence accessories, plus products for livestock weighing and EID.

Pick up your copy from your local Gallagher dealer or call Gallagher in Owen Sound at 1-800-265-3150.

New 5" Nail-on Offset Insulator for Wooden Posts

The 5" nail-on offset is designed for permanent fences and will also protect existing fences by keeping animals away from the fence. The pinlock insulator makes both fence construction and wire removal easy tasks. The pinlock features a wide jaw design, making it ideal for both EquiFence and EquiBraid products. It is made from high density, white, UV resistant polyethylene plastic and comes with a 10 year guarantee. A bag of 20 (#61713) has a suggested retail price of \$14.99.

New 5" Offset Insulator for studded T-Posts

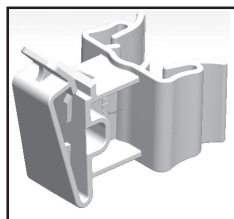

This new, white T-Post Offset insulator for the horse market protects an existing fence by extending the wire from the post to keep animals away from the fence. The pinlock insulator allows for easy fence construction and wire removal. The wide jaw design accommodates both EquiFence and EquiBraid products. The extra locking tab enables the insulator to fit all T-Posts from 1 1/4" to 1 1/2". It is manufactured from UV resistant plastic for strength and long life; there is a 10 year guarantee.

The suggested retail price for a bag of 20 (#65013) is \$14.99.

Horse Tape T-Post Insulator

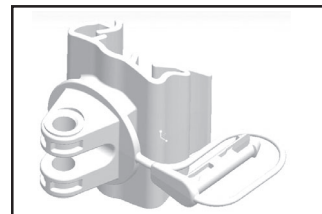

The Horse Tape T-Post insulator fits all studded T-Posts from 1 1/4" to 1 1/2" and is specifically designed for 1/2" to 1 1/2" tape. It is also suitable for EquiFence and EquiBraid products.

This insulator features a unique snap-on design that is simple to install without tools. It will hold tape tightly, preventing any movement and maximizing tape life. It is manufactured from white, UV resistant plastic for superior strength and long life; it comes with a 10 year guarantee. The suggested retail price for a bag of 20 is \$11.99 (#65413).

Universal T-Post Insulator

The new, Universal T-Post Insulator is designed to be used with studded T-posts from 1 1/4" to 1 1/2". The unique snap-on design means that it can be

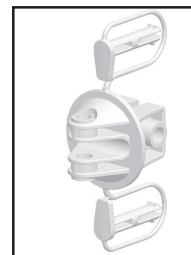

installed without tools. The pinlock insulator allows for easy fence construction and wire removal. The pin is sturdy for superior wire retention. The wide jaws accommodate both EquiFence and EquiBraid products. The insulator is manufactured from UV resistant, white plastic for strength and long life. There is a 10 year guarantee and the suggested retail price is \$11.99 for a bag of 20 (#68213).

T-Post Equi Pinlock Insulator

The T-Post Equi Pinlock insulator pegs onto a T-Post with 8mm holes and is suitable for both EquiFence and EquiBraid products.

The pinlock insulator has a large shield to prevent pulse arcing and minimizes power leakage. It is manufactured from UV resistant, white, polyethylene plastic and has a 10 year guarantee. The suggested retail price is \$17.99 for a bag of 25 (#66314).

DEAR DR SHOCK

*Dear Dr. Shock,
I want to record my calves electronic identification tags along with their date of birth and birth weight and send this information to the CCIA for age verification. Can your SmartScale products help me to accomplish this?*

EID Eric

Dear Eric,
The SmartScale 700 Indicator can do this. It has a custom trait table that allows you to collect all your pertinent information and then send it to your computer. From the computer you can then send it on to CCIA or other agencies using a CSV format. For more information or an on-farm consultation please call Gallagher at 1-800-265-3150.
